## PROFILE

I am a passionate Computer Science Engineering student with a strong foundation in web development and programming. With expertise in front-end technologies like **HTML**, **CSS**, **JavaScript**, and **Bootstrap**, I create responsive, user-friendly websites that deliver great user experiences. Alongside my web development skills, I am proficient in **C** and **C++** programming, and have a solid understanding of Data Structures and Algorithms (DSA), which helps me write optimized code.

## EXPERIENCES OR TRAININGS

### Internship | **OASIS** | 01 January 2023 – 02 February 2023

- **Role:** Web Developer intern
- **Company:** OASIS
- **Technologies:** Working with Github, HTML, CSS.
- **Responsibilities:**
  - Collaborated with the development team to create responsive website designs using HTML and CSS, ensuring websites were optimized for both desktop and mobile devices.
  - Improved website performance by optimizing CSS and implementing best practices for responsive design.
  - Tested and debugged websites across various browsers and devices to ensure cross-browser compatibility.

## PROJECTS

### Temperature Converter | Feb 2023

- **Project:** Developed a temperature converter website that allows users to convert temperatures between Celsius, Fahrenheit, and Kelvin.
- **Technologies:** Utilized HTML5 and CSS3 for creating a responsive and modern design.
- **Frontend Development:** Designed an intuitive layout using HTML forms and buttons, with a clean, responsive design. The conversion results are dynamically displayed on the page after the user inputs a value.
- **Responsive Design:** Employed CSS media queries and flexbox/grid systems to make the site responsive, ensuring optimal viewing on different devices and screen sizes.
- **User Experience (UX):** Styled with CSS to ensure an easy-to-use and visually appealing interface, with clear input fields and buttons.

### Portfolio | Feb 2023

- **Project:** Developed a personal portfolio website to showcase projects, skills, and experience.
- **Technologies:** Utilized HTML5 and CSS3 for creating a responsive and modern design.
- **Frontend Development:** Demonstrated proficiency in HTML and CSS to structure and style the website, ensuring a clean and professional layout.
- **Responsive Design:** Employed CSS media queries and flexbox/grid systems to make the site responsive, ensuring optimal viewing on different devices and screen sizes.
- **User Experience (UX):** Focused on intuitive navigation and minimalist design to enhance user engagement, with smooth transitions and easy access to information.

## TECHNICAL SKILLS

- **Languages:** C++, C, JavaScript, SQL
- **Technologies:** HTML5, CSS3, Bootstrap,

## EDUCATION

Bhagalpur College of Engineering, Bhagalpur

2021-2025

BEU - BTech - Computer Science of Engineering - CGPA – 7.0

Bhagalpur, Bihar

Rajkiyakrit (+2) high school | 12<sup>TH</sup> | 61.2

2019-2021

Sita saran memorial School | 10<sup>TH</sup> | 56.8

2016-2018

## ACHIEVMENTS

- Fourth Prize, **Forensic Hackathon** (technority), Bhagalpur College of engineering (2023)
